DETAILED ACTION

1. This communication is in response to applicant's response received on 1/18/2005. The amended claim 27 and the terminal disclaimer have been entered.

Allowable Subject Matter

2. Claims 1-28 are allowed.

Regarding claims 1 and 20, the reason for the allowance of claims 1 and 20 have already been mentioned in the previous office action.

Regarding claim 15, the prior arts of record fail to teach or disclose a method of transmitting data in an oil well environment as claimed in claim 15, which comprises detecting the corresponding transmitted data signals and inputting the transmitted data signals into an adaptive transmitter controller; and utilizing the adaptive transmitter controller to optimally drive the transmitter by adaptively modifying later-transmitted data signals to counteract the distorting effects of the transmitter and acoustic channel on the transmitted signals.

Regarding claim 24, the prior arts of record fail to teach or disclose an apparatus for transmitting data along an acoustic channel in an oil well environment, comprising an adaptive transmitter controller for optimally driving an acoustic transmitter; and an acoustic transmitter operatively connected to the controller and operatively connected to the acoustic channel at a first location to transmit along the channel; and an acoustic receiver placed along an acoustic channel at a second

location, wherein the receiver is operatively connected to the adaptive transmitter controller.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
